

There are 20 bugs on this page, can you find them all?

Bugs are bad and they live on my hands, but I have a secret weapon...

Soap and Water

I use my hands to

- Love and care for my pets
- Help out in the kitchen
- Play with my friends outside
- Cover my mouth when I sneeze
-  Eat my food at meal times
- Wipe my nose with a tissue

Give bugs nowhere to hide
Wash your hands!

ALWAYS WASH YOUR HANDS BEFORE EATING AND AFTER GOING TO THE TOILET
